Material Safety Data Sheet

1. Identification of the Substance/Preparation and of the Company

Product Name NEOVAC SY

Product Code 00121

Manufacturer MORESCO Corporation.

Address 5-5-3, Minatojima-minamimachi, Chuo-ku, Kobe-city, Hyogo, Japan

Emergency Telephone Number Functional Fluids Sales Department Sales Section

Tel: 81-6-6262-3310 FAX: 81-6-6262-3327

Functional Fluids Sales Department Tokyo Sales Section

Tel: 81-3-3273-7526 FAX: 81-3-3281-7756

Lubricating Oils Manufacturing Department Technology Section

Tel: 81-791-42-2100 FAX: 81-791-43-3179

Customer Center

Tel: 81-6-6262-3385 FAX: 81-6-6262-3327

Email Address: customercenter@moresco.co.jp

Recommended Use and

Vacuum Pump Oil

Restrictions on Use

2. Hazard Identification

GHS Classification:

Physical Hazards Not applicable to the GHS Classification

Health Hazards Acute Toxicity - Dermal Category 5

Environmental Hazards Not applicable to the GHS Classification

Hazardous to Aquatic Environment

Label Elements:

Pictograms/Symbols None Signal Word Warning

Hazard Statements May be harmful in contact with skin

Precautionary Statements [Prevention]

None [Response]

Call a POISON CENTER/doctor if you fell unwell.

[Storage]
None
[Disposal]
None

1JE

3. Composition/Information on Ingredients

Distinction between Substance and Mixture : Mixture

Chemical Name/Generic Name: Alkyl diphenyl ether, Lubricating oil additive

Chemical Formula: Not identified

Ingredient and Concentration Alkyl diphenyl ethel 98 -100%

Lubricating oil additive $\leq 2\%$

4. First-Aid Measures

Inhalation: Remove victim to fresh air and let him rinse mouth thoroughly with water.

Wrapping a blanket and the like around him to keep warm for a rest, call a

doctor/physician immediately.

Skin Contact: Rinse skin with soap and water.

Eye Contact: Immediately rinse eyes with clean water for at least 15 minutes. Remove

contact lenses if present. Continue rinsing. If eye irritation persists, get medical

attention.

Ingestion: Call a doctor/physician immediately. Do not induce vomiting.

If affected, the mouth should be rinsed out thoroughly with water.

Expected Acute and If swallowed, may suffer from diarrhea and vomiting.

Delayed Symptoms, and May cause inflammation if in eyes.

Most Important Symptoms/ May cause inflammation if on skin.

Effects: May feel unwell if mist is inhaled.

5. Fire-Fighting Measures

Suitable Extinguishing Media Foggy reinforcing agent, foam, powder, or carbon dioxide

Unsuitable Extinguishing Media Jet water

Specific Hazards Currently there is no useful information.

Specific Fire-Fighting Measures Shut off the fire source.

Use powder or carbon dioxide extinguishers at the beginning of fire.

It is effective to intercept the air from a big fire with foam

extinguishers. Use of water may cause spreading of fire.

Cool the surrounding facilities with water spray. Evacuate non essential personnel around the fire.

Special Protective Actions for

Wearing protective glasses, protective clothing, and if necessary,

Fire-Fighting

respiratory protective equipment, start to fight fire on the windward

side.

6. Accidental Release Measures

Personal Precautions, Protective If skin or eye contact is possible, wear protective equipment. If mist

Equipment and Emergency Procedures is produced, wear respiratory protective equipment to avoid

inhalation.

Environmental Precautions Take up as much as possible to avoid soil contamination and water

pollution.

Avoid release to the environment.

Collection/Neutralization Eliminate the source of ignition of the surrounding.

and Methods/Materials for Containment
In the case of a large amount: Dike ahead of liquid spill area to

minimize migration and then sweep into an empty container for disposal in a safe place. After disposal, wash away with plenty of water. In doing so, take care to prevent the high concentration of

wastes from entering public watercourses such as rivers.

In the case of a small amount: Take up into an empty container by absorbing the spill with earth and sand or rags, and furthermore sop

up with rags thoroughly.

Prevention of Secondary Hazards Remove all the ignition sources immediately. (Do not smoke nearby

and keep away from sparks and flames.)

Report to the related organs for help.

7. Handling and Storage

Handling:

Technical Measures

Before repairing machinery with remnant oils on, remove them thoroughly in a safe place. Take precautionary measures against static discharge and wear electro conductive clothing and shoes.

As vapors released from petroleum products are heavier than air, they are liable to stagnate.

Due to it, attention should be paid to ventilation and fire.

Handle at room temperatures, paying attention to moisture and to impurities not to mix with.

If skin or eye contact is possible, wear protective equipment. If mist is produced, wear respiratory protective equipment to avoid inhalation.

Use a pump and the like to take out of container.

Do not suck through a tube.

Do not weld, heat, hole, and cut off the container. Residues may ignite involving explosion.

Local Exhaust Ventilation/ Full Ventilation System Refer to '8. Exposure Controls/Personal Protection'.

Avoiding Contact Refer to '10. Stability and Reactivity'.

Precautions for Safe Handling Obtain special instructions before use.

Do not handle until all safety precautions have been read and understood.

1JE

Be cautious not to use any naked fire.

As vapors released from petroleum products are heavier than air,

they are liable to stagnate.

Wash hands thoroughly after handling.

Use only outdoors or in a well-ventilated area.

Do not eat, drink or smoke when using this product.

Do not press an empty container. It may explode under pressure.

Do not drink.

Keep out of reach of children.

Storage:

Technical Measures Avoid heat, sparks, flames, and static electricity.

Keep container tightly closed.

Incompatible Materials Refer to '10. Stability and Reactivity'.

Conditions for Safe Storage Store in a well-ventilated area.

Store avoiding exposure to direct sunlight.

Materials for Containers/Packaging When replacing the container, use metal or glass container. Some

kinds of resin-treated container may melt.

Use airtight, anti-breakage type containers.

8. Exposure Controls/Personal Protection

Permissible Concentration (Exposure Limit, a biological exposure index):

Japan Society for Occupational Health (2010): No information 1)

ACGIH (2010): No information ²⁾

Standards for Allowable Density of Hazardous Substances in Labor Operation Air: Not established

Engineering Controls: When mist and vapors are produced, seal off sources or provide exhaust

ventilation. Facilities for rinsing eyes and washing a body are required near the

workplace.

Personal Protective Equipment

Respiratory Protection: Not normally required, wear hazard mask (for organic gas) if necessary.

Hand Protection: If necessary, wear oil-resistant protective gloves.

Eye Protection: If diffusion is possible, wear eye protection.

Skin and Body Protection: If necessary, wear protective clothing and face protection.

Hygienic Precautions: Wash hands thoroughly after handling.

Regularly inspect protective equipment according to the inspection table of

protective equipment.

Do not eat, drink or smoke when using this product.

9. Physical and Chemical Properties

Physical State:

Appearance Liquid

Color Light yellow

Odor Slightly Oily odor

pH Not applicable
Melting/Freezing Point Not applicable

Boiling Point 150°C/0.1mmHg (13Pa)

Flash Point ≥200°C(COC) Explosive Range (Explosive Limits) No data available Vapor Pressure No data available No data available Vapor Density (air=1) $0.90 \text{g/cm}^3 (15^{\circ}\text{C})$ Specific Gravity (Density) Solubility Insoluble in water Partition Coefficient: n-octanol/water No data available **Auto-ignition Temperature** No data available

Pour point $\leq -15^{\circ}$ C

Volatility None (at room temperatures)

10. Stability and Reactivity

Stability Stable

Possibility of Hazardous Reactions No data available (Hazardous reactions will not occur under normal

use)

Conditions to Avoid No data available (Hazardous reactions will not occur under normal

use)

Incompatible Materials Halogen, Strong Acid, Strong Alkali, Strong oxidizer

Hazardous Decomposition Products None

11. Toxicological Information

Acute Toxicity:

Oral ATEmix(Oral) > 5000mg/kg can be estimated (based on GHS

Classification).

Dermal ATEmix(Dermal) ≥ 2000mg/kg can be estimated (based on GHS

Classification).

Classified into Acute Toxicity (Dermal) Category 5 as mixture.

Inhalation Information is not classified as Acute Toxicity (Inhalation).

Skin Corrosion/Irritation Information is not classified as Skin Corrosion/Irritation.

Serious Eye Damage/Eye Irritation Information is not classified as Serious Eye Damage/Eye Irritation.

Respiratory or Skin Sensitization Information is not classified as Respiratory or Skin Sensitization.

Germ Cell Mutagenicity Information is not classified as Germ Cell Mutagenicity.

Carcinogenicity Information is not classified as Carcinogenicity.

1JE

Reproductive Toxicity Information is not classified as Reproductive Toxicity.

STOT/Systemic Toxicity - Information is not classified as Specific Target Organ Toxicity/

Single Exposure Systemic Toxicity (Single Exposure).

STOT/Systemic Toxicity – Information is not classified as Specific Target Organ Toxicity/

Repeated Exposure Systemic Toxicity (Repeated Exposure).

Aspiration Hazard Information is not classified as Aspiration Hazard.

12. Ecological Information

Ecotoxicity Information is not classified as Aquatic Toxicity.

Persistence and Degradability

No information available

Bioaccumulative Potential

No information available

Mobility in Soil

No information available

Other Adverse Effects

No information available

Environmental Criteria

No information available

13. Disposal Considerations

Waste Residues Dispose the waste according to national and local regulations.

Do not dump.

Contaminated Containers Contaminated or empty container/packaging are to be disposed according to

and Packaging national and local regulations.

14. Transport Information

International Regulation

UN Classification Not applicable

Special Precautions Load the containers in a manner that they are certain not to result in direct

sunlight exposure, damage, corrosion, leak, while being transported.

Do not place heavy load on top of the container.

15. Regulatory Information

No Information

16. Other Information

References:

- 1) Recommendation of Occupational Exposure Limits by Japan Society for Occupational Health
- Thresholds limit values for chemical substances and physical agents and biological exposure indices by ACGIH
- 3) MSDS of raw materials

Date Prepared: April 15, 2014 1JE

1. As evaluations on hazards are not necessary satisfactory, special attention should be paid for use.

- 2. This MSDS, summarizing matters to be attended to, is required for proper use of the product and is intended for normal use.
- 3. Referring to this MSDS, properly use and handle this product on the user's own responsibility.
- 4. The contents of this MSDS are based on information available as of today and our knowledge. The information, data, and evaluations herein are not guaranteed, and in addition, may be revised due to revision of laws or knowledge newly obtained.
