REACH Statement

REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals) is a European Union Commission (EUC) Regulation on chemicals and their safe use (EC 1907/2006) entered into force on 01 June, 2007 and will be phased in until 2018.

Inland Vacuum Industries, Inc. supports the basic aim of REACH in improving the protection of human health and environment through the better and earlier identification of intrinsic properties of chemical substances. Inland Vacuum Industries, Inc. meets all applicable REACH requirements and is committed to provide our customers with information about substances in its products as required.

In an effort to address the requirements of the REACH regulation and ensure a reliable ongoing supply of Inland Vacuum products, Inland Vacuum has contacted suppliers to confirm all necessary registration of in-scope substances in formulations, preparations, materials, or articles to be completed by the REACH deadlines. In addition, suppliers have been requested to assess the potential presence of Substances of Very High Concern (SVHC).

Inland Vacuum's products do not contain any of the currently listed SVHC's. Inland Vacuum will continue to work with our suppliers to ensure that all SVHC's are notified to the European Chemicals Agency, if necessary, to comply with the REACH requirement.

Inland Vacuum assures its customers that our products are in full compliance with the EU REACH requirement.
